

Schedule of NCBI Events During ASHG 2019

Oct 15-19, 2019 Tue-Fri	NCBI staff will participate in the ASHG annual meeting in Houston. Attend NCBI presentations, posters and visit us at the NCBI Booth to learn about NCBI research and products.	George R. Brown Convention Center Houston, TX
Oct 16, Wed 10am-4:30pm Oct 17, Thu 10am-4:30pm Oct 18, Fri 10am-3:30pm	NCBI Exhibit Booth — Learn how to use NCBI resources for microbes. Give feedback to help shape NCBI resources to best fit your needs. Come and meet with NCBI staff.	Booth #214 Exhibit Hall
Workshops and Demonstrations		
Tue, 9am-12pm	The Reference Assembly & Reference Materials: Update from the GRC and GIAB	Montrose AB, Level 3 Marriott Marquis
Wed, 4-4:30pm	NCBI Resources for Next Gen Sequence Analysis	Exhibit Hall, Booth 1209
Fri, 10-10:30am	Using dbGaP Aggregated Allele Frequency and other large data sets in dbSNP to improve human genetic variation interpretation	Exhibit Hall, Booth 345
Presentations		
Wed, 9 am	Advancements in the human genome reference assembly (GRCh38)	Grand Ballroom B, Level 3
Thu, 9 am	Open access to dbGaP new aggregated allele frequency for variant interpretation	Hall B, Level 1
Posters (Exhibit Hall)		
Wed, 2-3 pm	De novo assembly and characterization of a breast cancer reference sample using multiple whole genome sequencing technologies	Poster 1647W
Thu, 3-4 pm	Here, there, and everywhere: NCBI resources for genomic analysis and visualization in local, web, and cloud environments	Poster 1672T
Fri, 1-2 pm	Accelerating research with the NCBI Sequence Read Archive on the commercial cloud	Poster 1673F
Fri, 2-3 pm	RefSeq Functional Elements: An annotated dataset of validated non-genic elements for variant interpretation and functional discovery in the human genome	Poster 1604F
Fri, 2-3 pm	Behind the scenes of submission processing at ClinVar	Poster 1652F
Fri, 2-3 pm	Pharmacogenetics beyond the drug label, with NIH's Medical Genetics Summaries (MGS)	Poster 494F
